■ **FINANCE SAFETY.**

The Url-Moty Consortium is happy to support you within finance matters. The finance of harvesters as well as a finance of seeds is possible.

FROM THE SEEDS TO THE CUSTOMER

(Everything from one hand)

SEEDS.

The seeds derive from an own, GMO free, Styrian breeding. A strict examination regarding germs and impetus guarantee high harvest success.

1

3

CARE.

F.Url is happy to support you with specific and reliable instructions for the protection of plants, pollination and fertilising. Moreover F. Url offers regular vegetation instructions and controls.

5

WASHING, DRYING, ASPIRATION.

The pumpkin seeds are first washed with 100 % pure potable water, then dried in a smooth way and cleaned.

CULTIVATION.

The contractual cultivation takes place according to strict culture instructions from F.Url, according to a preceding crop plan. Within this plan only established Styrian seeds is cultivated. We at F.Url are happy to support you on site.

2

4

HARVEST.

For the pumpkin harvest only modern Moty-harvester are used. Only the ripe pumpkins get harvested and later on washed and dried.

6

PROCESSING.

F. Url has the possibility to process the seeds according to customer demands (sorting, caramelising, cutting and pressing to oil).

EVERYTHING
FROM ONE HAND.
(We are happy to welcome you!)
